## OBJECTIVE

---

I am a Computer Science and Engineering student with a strong foundation in Java, JavaScript, HTML, CSS, and Angular. I am passionate about learning new technologies and applying them to real-world problems, and I am seeking an opportunity to grow my skills while contributing to a forward-thinking organization.

## Technical Skills

---

**Languages:** Java , JavaScript

**Web Development:** Angular, React, Express.js, Node.js ,

**Database Technologies:** MongoDB, MySQL

**Development Concepts:** Responsive Web Design, CRUD Operations

**Tools & Version Control:** Git, GitHub, GitHub Actions

## Projects

---

### SkillEx Website Using MERN Stack

The SkillEx platform was designed and developed using the MERN stack (MongoDB, Express.js, React, Node.js), with a strong focus on creating an intuitive user interface to enhance the overall user experience. The platform allows users to share their experiences, offer mentorship, and gain knowledge from others in a seamless and user-friendly environment.

### Student Result Management System — Angular + Java Spring Boot + MySQL

Developed a full-stack web application with Angular for UI and Spring Boot REST APIs for backend. Implemented student and marks management, JWT login, and automated grade calculation with responsive Angular Material design.

## Education

---

|                    |   |
|--------------------|---|
| Currently Pursuing | <b>B-Tech - Computer Science and Engineering</b><br><i>SILICON UNIVERSITY , Bhubaneswar</i>                   |
| 2020 – 2023        | <b>Diploma - Computer Science and Engineering</b><br><i>Uma Charan Pattnaik Engineering School ,Berhampur</i> |

## EXPERIENCE

---

|                   |   |
|-------------------|---|
| 06/2024 – 07/2024 | <b>React Native Training — Syllogistek</b><br>Completed beginner-level training in React Native, covering core concepts such as components, navigation, state management, and building simple cross-platform mobile applications using JavaScript and React principles  |
| 06/2025 – 07/2025 | <b>MERN Stack Development Intern — Codebeat</b><br>Completed hands-on training in full-stack web development using the MERN stack. Gained practical experience in building and deploying web applications, developing RESTful APIs, integrating frontend and backend components, and managing MongoDB databases. Improved skills in responsive design, component-based architecture, and real-world project implementation. |
